## Hula Dancer basic

/// Data Sheet

Hula Dancer basic is a powerful orbital shaker with robust housing for high stability. The device has a shaking diameter of 4.5 mm and allows a maximum load of 100g. Its speed is fixed at 2800 rpm.

designed for scientists

### Technical Data

|                                                    |                |
|----------------------------------------------------|----------------|
| Type of movement                                   | orbital        |
| Shaking stroke [mm]                                | 4.5            |
| Permissible shaking weight (incl. attachment) [kg] | 0.1            |
| Motor rating input [W]                             | 9.5            |
| Motor rating output [W]                            | 5              |
| Permissible ON time [%]                            | 100            |
| Speed fix [rpm]                                    | 2800           |
| Timer display                                      | none           |
| Touch function                                     | yes            |
| Dimensions (W x H x D) [mm]                        | 123 x 42 x 123 |
| Weight [kg]                                        | 0.7            |
| Permissible ambient temperature [°C]               | 5 - 40         |
| Permissible relative humidity [%]                  | 80             |
| Protection class according to DIN EN 60529         | IP 42          |
| Voltage [V]                                        | 100 - 240      |
| Frequency [Hz]                                     | 50/60          |
| Power input standby [W]                            | 0.7            |
